Johnson Won Friends,-Several Ogden fight fans returned on Mallany's special train this afternoon and, in talking of the fight, said that John-son made a number of friends among the white people by his conduct. They also state that in their opinion Johnson could have whipped Jeffries when Jeffries was in his prime. The fighting attitude of Jack demonstrated that he was a master of the game. In no time was he in danger from the blows

of Jeffries. Local fans carried the report that Jeffries' trainers and supporters were angry with Jeff on account of the way he trained and several altercations, which did not get into the newspapers, took place between the training bunch.

List of Dead Has Been Cut Down Materia ly

Chicago, July 5.—The restrained observance of the Fourth of July has resulted in a material decrease of casualties in the country, according to figures compiled by the Chicago Tri-

This year's list of dead throughout the country so far as reported, totals Last year the same total was 44 The whole number of injured last year was 2,361. This year they were only 1,785.

In New York.

New York, July 5.—Five persons were killed on July 4, 1909 and but one death was due to fireworks in the city yesterday; 316 were hurt by firecannon and pistols last year and only 89 yesterday; there were 115 fires last year yesterday there were but 38, all insignificant. This is a showing over which advocates of a 'safe and sane Fourth" feel entitled to boast

No doubt most of the youngsters of the city felt somewhat cheated of their inherent rights yesterday, but undoubtedly the most indignant was Master Walter Solomon. By on old law, never repealed, and the origin of which is not generally known, one corner at Fifth avenue and 127th street is expressly exempt from the city ordinances, prohibiting the exploding of fireworks within the city limits. Shortly after daybreak, Walfuneral services over Mrs. Ethel ter was on top of the house on that Moyes, wife of Robert A. RACE RIOTS CAUSED BY RENO FIGHT

New York, July 5.-Police were still keeping a patrol today in the "black belt" of New York to check any further trouble engendered by the outcome of the Jeffrles-Johnson The irritation caused by the fight. defeat of Jeffries at the hands of the negro caused scores of street fights, negro haunts throughout the streets and outbreaks all through the night.

One negro was killed early today, assailant escaping, while sevin eral badly bruised negroes are hospitals recovering from injuries and fright.

The "black and tan" zone was the scene of the only race killing re-ported. Geo. Crawford, a negro waiter, had an altercation with an they found that he would not pass unknown white man over the question through until this evening. John R. of what Jeffries in his prime could friend of Johnson, was at the depot expecting to see him, but was disappointed along with the rest the hospital.

Nelson Turner, a negro, was nearly lynched for yelling to a crowd of white men in the San Juan section: "We blacks put one over on you whites and we're going to do more to von.

Then Turner drew a revolver which missed fire, and in a twinkling the crowd was on him. He was being hauled to a lamp post when the police rescued him.

There were race troubles in all the boroughs of the city but the police say no further trouble is expected.

WILD NIGHT IN PHILADELPHIA.

Philadelphia, July 5 .- More than 100 whites and blacks, some with their heads bandaged or showing other evidences of their participation in last night's riot, following John son's victory at Reno, were stood up before police magistrates today stood to receive punishment. As a rule, the disturbers of the peace were released with a fine, but those more seriously involved in the riots were held in ball or sent to the county prison for short terms.

It was a wild night among the rougher element of colored people in the negro sections, but no one was seriously hurt, either in the riots or hilarious celebrations of the negro champion's triumph.

The disturbances were not confined to any part or section of the city or public parks, fights breaking out nearly everywhere that the two races intermingled. The police were look ing for trouble in the event of Johnson's victory and ruled with an iron hand when the trouble came. Clubs were freely used in quelling the dis-

Union Pacific, Southern Pacific railroad officials at this point when informed that a rum-or was in circulation that Johnson had been shot and killed, said they knew nothing on which such a report could be based. They would have been immediately informed if any trouble had occurred on the train which, since it left Sparks, Nevada, has been on this division of the South-ern Pacific and under direct control of the division headquarters in this

city Johnson's train reached Montello, 120 miles west of Ogden, at 3 o'clock this afternoon. At that time the col-ored prize fighter was asleep in his car, and his companions stated that he had been enjoying every waking moment of his trip across the state of Nevada.

NATIONAL ENCAMPMENT INSTITUTION IN BOSTON

Boston, July 5 .- The National Educational institution was divided here today into 18 separate meetings, each assigned to the consideration of a specific topic. Three phases of child study were developed by the kinder-garten and elementary schools department in joint session.

"We have learned that all of the so-called naughtiness of children may be merely dangers indicating disturbances somewhere," said Maxmilian E. Grossman of Plainfield, N. J., discussing "Danger signals in young children in the child study section." "The time may come when there will be a

scarcity of parenthood," he said.
"Teachers should consider them selves students of child nature, not child betters." That it is time gifted children be given as much care as the defective and inefficient was the statement of superintendent Robert J. Aley, of Indianapolls. "The ability to raise money, wheth-

er from wealthy men or through state legislature, is a sine quo non for the American university president," de-clared President James H. Baker of the University of Colorado, addressing the meeting of the department of higher education on administrative problems outside of teaching.

"The universities," he contended, "are too much governed by the spirit measure everything too much by quantity rather than quality.

TRAN THIEF CLEVERLY CAUGHT

One of the cleverest passenger train thiefs was sentenced last Saturday at Rawlins, Wyoming, to eighteen months in the Wyoming state The crook was known Anthony Earnest, alias Anthony Ber-ger, and was arrested in Ogden last Thursday by Special Agent Lewis of the Union Pacific railroad.

On June 22 a passenger on Union Pacific train No. 3, upon his arrival in Ogden reported to the railroad had lost a pocketbook containing some papers and a small amount of money. He also gave a description of the man whom he suspected of the crime. Detective Lewis who was in Ogden working upon the Short Line train robbery case went to work upon the case. He soon located Borger and when accused of the crime the latter confessed and offered to go to Wyoming without requisition papers. Upon his arrival at Rawlins Berger was taken before the district court, pleaded guilty and was sentenced.

The Union Pacific officials are highly elated over the arrest of Berger whom they claim has "worked" all the trains running into Ogden. He traveled well dressed and worked himself into the confidence of some unsuspecting traveler.

PRINCE MARRIES DAUGHTER OF DR. PARKER DEACON

London, July 5 .- Miss Dorothy Deacon daughter of the late Dr. Parker Deacon, and Prince Atterne Albert Radzi Will were married today in St. Mary's church, Cadegon square. MATHEWSON HAS BOTH PHYSIQUE AND BRAINS

A Splendid Combination Which Helps to Make Him the Greatest Pitch-in the Game Today.

Christy Mathewson, whom Frank Chance picks as the greatest pitcher in the game today, is indeed a re-markable athlete. He had the luck to fill when he drew to physique and brains. There are a few pitchers in the big league who haven't the speed and the curves they used to have but they retain their control of the ball and they have, as a stock in trade, an intimate knowledge of the weakness of every hitter who faces them. They "get away with it" cause they mix brains with their limited ability and win over younger men who have speed and curves to burn.

Sometimes a Phenom.

Once in a long, long time there comes a pitcher who has everything curves, control and knowl -speed edge of his opponents. Mathewson is such a pitcher. He has great physical strength, a fine assortment of curves including that heart-break er, the "fadeaway" for which there eems to be no antidote, and with all this knowledge of weak spots of hit-ters which enables him to feed a man the very thing which he cannot

Mathewson has been "up there" a long time. He was a great pitcher before the illness which came near putting him out of business for good While he was recuperating from that illness he experimented with a nev series of curves which might be de-livered with as slight a tax on his strength as possible. He discovered the 'Tadeaway' and he is the only man in the world who can make use of this peculiar drop. It is now his trade mark. Lots of fellows know how he throws it; they know how to go through the motions, but when it go through the motions, but when it comes to whipping the tips of their fingers over the cover of the ball in order to make it float up and fall order to make it float up and fall and it was generally understood that

A Thirteen-Inch Gun. Matty is the big gun of the Giant battery. They shoot him in when they need a game and the confidence the New Yorkers out like champions Last year the Giants did not his in streaks. Mathewson pitched just as well as though his team-mates were tearing the cover off the ball and making runs for him. In one game at the polo grounds the big blonde, rather peeved because the hit ters would not give him an ace win on, soaked the ball into bleachers for a home run and called it a day. It was the only one he got in a season, but he got it at the right

Mathewson's great specialty is finding out what the new leaguers do not like. He has a memory like filing cabinet. By the time he has watched a new man work through a game against a right-hander Matty comes pretty near having the case diagnosed and he knows, what is more important what he does not

Of course, accidents happen,

there is a rule which can be followed with a great deal of safety. Most batters have a fondness for a certain kind of ball. One man will hit a speedy ball and fall down ingloriously on a slow one which floats up straight as a string. The next fellow may pray for a slow ball and hit a mile yon road from the power dam to the nervous man worries over a slow ball. He has too much time to spend in thinking about it and watching it come. The man without nerves stands like a cigar-store Indian until he can read the trade mark and then -whango!

Liked the Hard Ones. Some players like a ball close in and misjudge on the outside. Cravath, the outfielder who went to Minneapolis last season after playing with Boston and Washington, used to murder the most difficult of all fast balls, one high up under his ear on the inside. He gave the American association pitchers an awful time last season before they noticed 'Wooden Shoes" could "hit one off his chin."

Number of Dead Now Total 23 --- There Are 37 Injured

Middletown, O., July 5.—Three vietims of the wreck of the Big Four New York flyer yesterday died from their injuries during the night, bring-

ing the total dead up to 23.

Reports from the hospitals in Dayton and Hamilton, where many of the an injured were taken, indicate that a number of these will die. Some of them are frightfully injured. The names of those who died during the night were Edward Dunley, of Daytion, Edward Cain of Dayton, and William Amrine, residence unknown.

Dunley is a cousin of William Dunley whose name was in the list of

dead given out last night.

All the bodies have been identified but one. It is that of a woman about 45 years of age.

The wrecking crews were working all night and today the track was cleared. No more bodies were found in the debris. Officials are now engaged in trying to place the blame for It is almost certain that in addition to the coroner's inquest an investiga-tion of the disaster will be made by the Ohio rallway commission. Both

the Big Four and the Cincinnati-Ham-ilton & Dayton railroads, it is said, are endeavoring to play the responsi-bility for the accident on the other. It is said that the state railroad com-mission will determine this point. Of the killed, eighteen were pas sengers, the other victims being members of the passenger train crew
